Event Description:

TC: Temporary Contemporary is a temporary, public art program initiated by the Bass Museum of Art in partnership with the City of Miami Beach. It consists of a diverse selection of projects by international artists within Miami Beach's Arts District, where the city's most prominent cultural facilities and institutions are located. The program is intended to activate the urban landscape with art, surprising and engaging residents, visitors and passers-by with outdoor works of art in unexpected places. Sculpture, murals, sound installations, video and other interactive works of art will interrupt people's daily routines and encourage thoughtful interactions with the city and its communities. Public art becomes a catalyst to appreciate the unique character of Miami Beach from the Art Deco façade of the Bass Museum to Frank Gehry's New World Symphony, to the busy streets and boardwalk and the spaces in between.
